EXPERIENCE

QUALITY ASSURANCE OFFICER INTERN

Highlands Drinks Limited 06/2021 - 11/2021

- **Quality Assurance:** Led rigorous quality checks across production lines, ensuring compliance with industry standards and consistently high product quality.
- **Cross-Functional Collaboration:** Worked closely with teams to promptly resolve quality issues, implementing corrective actions to uphold excellence.
- **Continuous Improvement:** Fostered innovation and process enhancements, reducing defects and optimizing production quality and efficiency.
- **Standardization and Compliance:** Established standardized quality processes and maintained regulatory compliance, consistently meeting or exceeding customer expectations.

WATER ENGINEER INTERN

Nyeri Water and Sanitation Company 01/2021 - 04/2021

- **System Optimization:** Played a key role in designing, operating, and maintaining water and sewage treatment systems to ensure peak performance and safety.
- **Regulatory Compliance:** Conducted detailed water quality assessments and took proactive corrective actions, ensuring systems met regulatory standards.
- **Data Management & Reporting:** Enhanced documentation and streamlined reporting processes, making water quality data accessible and transparent for stakeholders.
- **Innovation & Collaboration:** Implemented cost-effective solutions to improve system efficiency and collaborated across disciplines to tackle complex water management challenges.

FINANCE OFFICER INTERN

Nanyuki Water and Sanitation Company 01/2017 - 06/2017

- **Financial Analysis & Strategy:** Provided insights through financial analysis and reporting to support strategic decisions and optimize resources.
- **Accounts Management:** Streamlined accounts payable and receivable processes, improving efficiency and reducing discrepancies.
- **Audit & Compliance:** Assisted in audits with precision, ensuring adherence to financial regulations and reporting standards.
- **Cost Efficiency & Controls:** Introduced cost-saving measures and strengthened financial controls, enhancing accuracy and overall financial performance.
